

Housing Market Responses to Transaction Taxes: Evidence From Notches and Stimulus in the UK Animations of Dynamics of Bunching Responses

Michael Carlos Best & Henrik Jacobsen Kleven*

April 2013

Abstract

These animations show how bunching responds over time to the movement of the notches in the stamp duty land tax schedule. The HMRC data used in this paper is Crown Copyright. The research datasets used may not exactly reproduce HMRC aggregates. The use of HMRC data in this work does not imply the endorsement of HMRC in relation to the interpretation or analysis of the information. All results have been screened by HMRC to ensure confidentiality is not breached.
